

## Lexicals Practice

For each item:

Leader, ask your partner a question. Then you answer. Then, compare your answers with the answer below.

- **reverse**
  - Are WNYN's audience ratings still in a downward trend?
  - What would you say if the stock market was going down for one year but during the last week went up 10 points every day?
- **across**
  - Have the ratings for all of WNYN's programs gone up?
  - What would you say if the stocks of 96% of the companies on the stock market rose?
- **afraid**
  - When Margaret asked if there was any way they could be sure that they really reversed the trend, did John give a helpful answer?
  - Do you think we will have to do homework for next class?
- **get at**
  - At first, did John understand at first what Margaret was asking him?
  - That's a beautiful cell phone. I wish I had one just like it. But I don't have enough money.
- **provide**
  - Will the improving trend at WNYN continue?
  - Do you think you'll get a good job after you graduate?
- **have sth to do w/ sth**
  - Do you think we should thank David for the improved ratings across the board?
  - If you want to learn English well, brush your teeth after every meal.
- **have sth to smn**
  - When will Bob see John's report?
  - When are you going to return the money that I lent you last week?
